[Haapsalu Tallinn University Haapsalu College](#) (TLUHK) is a regional college and campus of Tallinn University that provides professional higher education programmes in 4 different fields and is situated in a popular resort town on the Western coast of Estonia.

The main thematic competencies on professional higher education curricula are:

- health promotion and public health,
- safe community and traffic safety,
- Applied computer sciences: software development and design,
- product design and handicraft technologies.

The competence profile of Haapsalu College is strongly focusing on the fields of **health and safety** and is based on following horizontal values: interdisciplinary approach, entrepreneurial mindset, innovation, regional development and internationalization.
